

We need your voice to advance our goals and achieve impact!

Inviting Expressions of Interest for the **PHC Partner to Transform Health Care Pillar Advisory Committee**

Dear Medical Staff Colleagues,

Providence Health Care and the PHC Physicians and Surgeons Association (PASS) invite qualified medical staff to submit an Expression of Interest to serve on the [Partnerships](#) Pillar Advisory Committee - PAC (see Appendix, page 2). The Partnerships PAC is one of four Advisory Committees aligned with PHC's strategic priorities. It's led by Dr. Grace Li, liaising with VP Sponsor Deborah Mitchell, Chief Strategy Officer & Vice President, Governance, who will represent the voice of medical staff in the Partnerships PAC for Providence's seven-year plan.

The principal focus of the Partnerships PAC is to provide advice to, and support activities of the Partnerships Consultant Physician (collaborating with PHC sponsors and PASS). This will include the identification of opportunities to be pursued under the work plan.

We are looking for an effective leader and communicator as well as other qualities:

- Interest or experience in the area of the strategic direction
- Ability to work collaboratively with a multidisciplinary team
- Systems thinker
- Respect amongst colleagues
- Interest in, experience with, and/or knowledge of Digital Health (an asset, however not mandatory) and transitions in care.

Submitting an Expression of Interest (EOI)

As part of the simple recruitment process for the PAC, we invite you to submit a brief **Expression of Interest**. Simply email us at pass@providencehealth.bc.ca by telling us, in 1 or 2 sentences, why you are interested in the Partnerships PAC and how think you can contribute to this important work.

Compensation for your time

Funding will be provided by the PHC PASS Facility Engagement Initiative (FEI), at the FEI sessional rate, to remunerate your participation. Please contact pass@providencehealth.bc.ca if you are interested in participating in this important work.

Thank you for your consideration,

Dr. Grace Li Grace.li2@vch.ca

APPENDIX: PHC STRATEGIC DIRECTION GOALS Partnerships - Consultant Physician, Grace Li *The goals of this strategic direction are to:*

- Build and strengthen responsive, reciprocal and accountable partnerships with sovereign host Nations, Indigenous partner organizations and Indigenous patients, residents and families.
- Create partnerships with government and other public, private and academic organizations to advance new models of care.
- Cultivate partnerships that enable integrated care and more seamless transitions between hospital, specialty care, primary and community care.
- Seek and create partnerships with leading technology and digital health organizations to improve responsiveness, connectivity and quality.
- Prioritize partnerships that improve the care journey for people with complex medical and social service needs.
